

# Excellent 3D printing for dentistry

„Precise 3D printing is not a question of the price“

*"I would recommend this 3D printing course with Nis and Christiane to all kinds of technicians, beginners and experienced ones. You can learn how to print correctly and solve many problems you never thought about. As I said 'highly recommendable'."*

Francisco Ortega, Boston (MA), USA

*„A wonderful and brilliant workshop. A wonderful inspiration especially regarding economic efficiency.“*

Dr. Andreas Benecke, Elmshorn, Germany

*"Nis Rehfeldt, specialist and freak in 3D printing, looking for his equals. In a few hours, even the last sceptic will be convinced, that, with a low-budget printer, it is possible to print models you scarcely find in industry."*

ZTM / MDT Frank Köpp, Norderstedt, Germany

Dentale Rekonstruktion Nis Rehfeldt
